FOR IMMEDIATE RELEASE

## LET'S GO RACING AT THE I-25 SPEEDWAY

Southern Colorado's premiere oval track is set for a phenomenal 2008 season

PUEBLO, Co. (April 8, 2008)

Summer is fast approaching, and that means it's time to start those engines at the I-25 Speedway. Join us as seven home classes and seven traveling classes burn up the asphalt at the world's fastest paved quarter-mile oval track.

The class responsible for that record returns this year: the Super Modifieds. The Speedway will also host the United States Late Model Association's touring series, as well as the ever popular Rocky Mountain Midget Racing Association. And don't forget the entertaining Mini Cup class, where 7 to 13 year olds strap beefed-up lawn mower engines into go-kart sized cars, and race them at just over 60 mph.

The heroes of Southern Colorado will also be out in full force, from the raw power of the Grand American Modifieds, to the pure adrenaline of the Sportsman, Street Stock and Mini Stock Classes. Beginning racers will put a whole new twist on bumper cars in the Hornet class, while the Figure 8's will wow the crowd as they dodge one another at high speeds.

The I-25 Speedway has enjoyed a consistent 10-15% growth over the past seven years, and with new advertisers on board and some great special events planned throughout the season, this year will be no exception.

With fuel prices up and the economy down, Southern Colorado needs inexpensive summer entertainment, and we are it. The first green flag drops Saturday, May 3<sup>rd</sup>, at 6p.m. For a complete schedule of the season's events, please visit [www.i25speedway.com](http://www.i25speedway.com).
